Testing environment

URL:	https://test-prob.demohoster.com/index.html
Operating system:	macOS Monterey 12.4
Browser:	Google Chrome 103.

Recommendations

- Fix the problems with editing an application form ([QATC-613629](#));
- Fix the problems with displaying entered data after submitting the application ([QATC-613633](#));
- Review the use of two identical directions for choosing an internship ([QATC-613635](#)),
- Add user agreement and privacy policy ([QATC-613650](#), [QATC-613652](#)).

QA team

Company:	QA Academy
QA manager:	Olga Zlobich
QA engineer:	Alexandra Lychkovskaya

Additional information

Testing dates:	05.06.2022 - 24.06.2022
Time spent:	45 hours

Заявка на стажировку

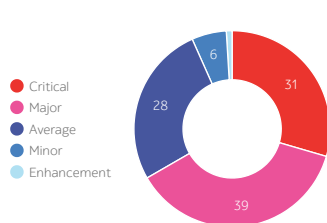

Product version: 1.0

General quality analysis

The overall quality of the application can be estimated as **Low**. The total number of defects is [116](#). Functional defects prevail, [31](#) of them have the Critical severity and [39](#) defects gain the Major severity. The majority of defects is opened for modules "[Dropdown \[Дата рождения\]](#)" and "[Education](#)". A detailed quality analysis is presented below.

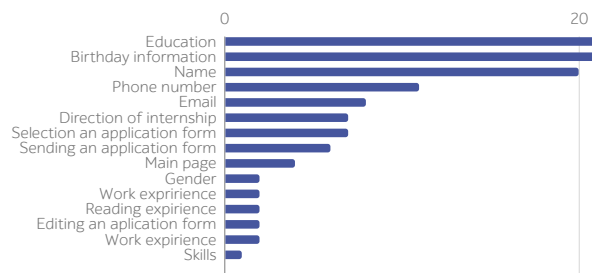

Detailed quality analysis

The total number of defects by severity

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **60%** of issues have **Critical** and **Major** severity. **Minor** defects **5%** only.

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues actual in **"Education" module (22)**, in **"Birthday information" module (21)**, and in **"Name" module (20)**.

Quality of separate modules

Module	Quality	Comments
Main page	High	The quality of this section can be estimated as High. Only 4 defects were found here. The issue (QATC-613550) concerns GUI: incorrect spelling of browser window title. Another notable defect (QATC-613572) is notification absence [Поля, отмеченные *, являются обязательными для заполнения.] at the beginning of the application form. The list of the issues actual for module "Main page" is here.
Name	Medium	The quality of module is estimated as Medium. In this section 20 defects were found. The most important problems are the following: Entering data in text boxes. For example, text field [Фамилия] not accepts entered double last names by hyphen (QATC-613653). Furthermore, by entering script in text box [Отчество] displayed text in italics in submitting application (QATC-613654). The list of the issues actual for this module is here.
Birthday information	Low	In this section 21 defects were discovered during the testing, 16 of them have priority Critical or Major. The most important defects are absence of dropdown for text box year of birth (QATC-613655) and inability to fill data in text fields correctly (QATC-613656). The complete list of defects in module "Birthday information" can be found here.
Phone number	Low	In general, the quality of the module can be estimated as Low. The overall number of defects in this module: 11. 6 of them have priority Critical and Major and affect the quality of the module vastly. For example, field failed validation for XSS-vulnerability (QATC-613657). Follow the link to view all defects found in this module.
Email	Medium	The quality of this section is estimated as Medium. 8 defects were found in "Email" module. It is allowed to enter invalid data by copy paste (QATC-613658).
Gender	Low	2 defects were opened in this module. It is not allowed to change gender with certain choice (QATC-613659).
Education	Low	This module contains 22 defects. The most common issue was opened for setting limit for data entry less than in the customer's requirements for text field in this Module (QATC-613660).
Work experience	Medium	In general, the quality of this module can be estimated as Medium. Two defects were found here. There are no indication of obligatory filling in the field (QATC-613662) and a limit on input is exceeding the customer's requirements and (QATC-613663).
Skills	High	The quality of the module is estimated as High. Only one issue was opened for this Module. Limit on input is exceeding the customer's requirements (QATC-613661).
Direction of internship	Low	The quality of the module is estimated as Low. Most important issue is the following: Using of equivalent formulations in dropdown for choosing positions of internship (QATC-613635). The list of the issues actual for this module is here.
Selection of skills	Low	This module contains serious defects. 7 issues were opened here. Most important of opened issue is previously selected positions in another dropdowns remain active by changing position in dropdown (QATC-613666).
Reading experience	High	The quality of the module is estimated as High. 2 defects were found here. There are notification appears [Поле обязательно для заполнения] by the optional text field. (QATC-613667). Limit on input is exceeding the customer's requirements (QATC-613664).
Sending an application form	Low	This module contains serious defects. 6 issues were opened here. Most important of opened issue is entered data in application form displayed incorrect. (QATC-613633).
Deleting an application form	High	This module contains one defect. By clicking the button [Удалить заявку] not appears modal window [Вы действительно хотите удалить заявку?] (QATC-613665).
Editing an application form	Low	This module contains 2 Critical defects and opened for main function of this Module - editing an application form. After clicking on the button [Отредактировать заявку] previously entered data disappears. The list of defects found here (QATC-613629).
